SUMMARY

Aspiring Full Stack Web Developer with practical experience in React, WordPress, and Shopify, gained through academic and freelance projects. Strong in developing responsive, user-centric interfaces and customizing websites to meet business needs. Familiar with backend concepts and database integration, with a focus on clean code and continuous learning. Passionate about building scalable web solutions and improving user experience.

EDUCATION

Bachelor of Technology – Computer Science & Engineering
Vaagdevi College of Engineering, Warangal, India | 2025 | CGPA: 8.14

TECHNICAL SKILLS

Frontend Development	HTML, CSS, TailwindCSS, Bootstrap, JavaScript, React
CMS & E-Commerce Development	WordPress (Elementor, Theme Customization), Shopify (Store Setup, Theme Customization)
Backend Development	Node.js, Express.js, Socket.IO (familiar)
Programming Languages	JavaScript, Python
Databases	MongoDB, MySQL
Cloud & Deployment	AWS, Firebase, Vercel, Netlify, Git & GitHub
AI & Developer Tools	OpenClaw, GPT, Claude, Gemini, Perplexity, Copilot, Cursor
Soft Skills	Effective Communication, Problem Solving, Teamwork, Time Management, Adaptability

EXPERIENCE

Freelance Web Developer – NewNet Secure Transactions

March 2026 – Present | West Chicago, United States

- Migrating client website from DUDA to WordPress for improved flexibility, scalability, and performance.
- Redesigning complete UI/UX with a modern, responsive layout across desktop and mobile devices.
- Rebuilding website pages ensuring accurate content transfer and maintaining original structure.
- Developing and customizing WordPress pages using Elementor to create clean, reusable components.
- Optimizing performance through image compression, efficient asset handling, and layout improvements.
- Conducting cross-browser testing to maintain consistency across different browsers.

Freelance Full Stack Web Developer – Moonglade Atelier

December 2025 – March 2026 | Hyderabad

- Designed and developed a complete business portfolio website from scratch showcasing the company's services.
- Built responsive UIs and backend functionalities for dynamic content handling and scalability.
- Integrated contact forms, service pages, and structured navigation for improved user experience.
- Implemented custom UI/UX with modern design components and smooth animations aligned with brand identity.
- Managed full deployment lifecycle including hosting setup, domain configuration, and production release.

Freelance Web Developer — Urban Psychotic

August 2025 – October 2025 | Hyderabad

- Developed a fully functional Shopify e-commerce clothing website with custom Liquid theme sections.
- Designed responsive UI/UX layouts ensuring seamless performance across mobile, tablet, and desktop.
- Integrated secure payment gateways and optimized checkout flow to enhance user conversion rates.
- Customized product pages, collections, and navigation for improved user experience and accessibility.
- Implemented SEO-friendly structure and performance optimizations for better page load and search visibility.

Deep Learning Intern — NIT Warangal (NITW)

December 2023 – January 2024 | Warangal, India

- Conducted research on text analysis using deep learning; applied ML techniques for sentiment and topic analysis.
- Designed, implemented, and fine-tuned models using LSTM, CNNs, and Transformers.
- Utilized NLP frameworks like BERT for accurate text classification and real-world text processing applications.

PROJECTS

Sign Language Detection

Vaagdevi College of Engineering | January 2025 – April 2025

- Developed a real-time ML model interpreting live hand gestures into alphabets using computer vision.
- Implemented image preprocessing, feature extraction, and classification for accurate hand sign recognition.
- Trained and evaluated the model using TensorFlow and Keras; built with Python and real-time webcam input.

CHIT CHAT — Real-Time Chat Application

Personal Project | chit-chat-5e9g.onrender.com | October 2024 – December 2024

- Developed a full-stack real-time chat application supporting instant messaging and file sharing.
- Implemented WebSocket-based communication via Socket.io for low-latency data transmission.
- Built backend services using Node.js and Express; integrated unique room creation using UUID.

CERTIFICATIONS

Full Stack Web Development — Physics Wallah

Hands-on knowledge of full stack development including frontend, backend basics, and database concepts.

Cloud Computing — AWS Academy Cloud Foundations

Foundational knowledge of AWS cloud services, architecture, and deployment concepts.

Machine Learning with Python — IBM Developer Skills Network

Core machine learning concepts and model implementation using Python and Scikit-learn.
